**Undying hope, Creator near,
a faith that has no fear.**

**Undying hope, it's ours to glean,
the trust in the unseen.**

**Awaiting joy, Redeemer come,
a gift for all, not some.
Awaiting joy, we celebrate,
there's no more room for hate.**

**When I was lost,
I could not see;
dark clouds surrounded me.**

**And then that grace,
amazing still,**

**Transforming love, Sustainer Friend,
you're with us to the end.
Transforming love, in this we grow,
your love the world to show.**

**When I was lost,
I could not see;
dark clouds surrounded me.**

**And then that grace,
amazing still,**

[brief instrumental]

**When I was lost,
I could not see;
dark clouds surrounded me.**

**And then that grace,
amazing still,**

**Soul-filling peace, in you we rest,
meeting our ev'ry test.**

**Soul-filling peace, our praises be
to you, the One in Three.**

to you, the One in Three.**
